

## OKS 2681 Adhesive and Paint Remover, spray

---

### Description

Highly-effective cleaner for removing stubborn residues, such as residues of sealants, paints and adhesives in industry, trade and workshops.

### Applications

- Dissolving of a wide range of sealants and adhesives such as polyurethane residues, materials containing epoxies
- Elimination of oily and greasy soiling
- Removal of bitumen and tar splashes
- Dissolving of labels and adhesive strips
- Removal of paints on a PMMA and PU resin basis from metal surfaces

### Advantages and benefits

- Good infiltration of adhesive films allows easy removal of the residues from the surface
- Good washable with water after use
- Applicable to surfaces of metal, stainless steel, glass, wood, ceramics. Do not apply on sensitive materials such as PVC, PS or on painted surfaces
- Low effect on the climate and no negative influence on the ozone layer (ozone-depleting potential: ODP = 0)
- Free of surfactants, halogenated and aromatic solvents

### Main fields of application

- Workshops
- Handicraft, heating and sanitary companies
- Maintenance

### Application tips

Shake can well before use. Spray onto the surfaces to be cleaned and, depending on the degree of soiling, allow it to react for a longer period. Repeat if necessary. Subsequently wipe off with a moist cloth. Caution: When using on plastics and sensitive surfaces check compatibility beforehand.

Our customer advice service will be pleased to help should you have any further questions.
